

PowerBreaker RCD Testimonials & Reviews

“Reliability and confidence in product choice is paramount in Wilts Wholesale's decision when it comes to deciding what product ranges we will commit to.

When considering safety products this policy becomes even more of a priority and therefore when looking for an RCD partner – PowerBreaker is the obvious choice. Although already a market leader they are not willing to rest on their laurels and have carried out a recent upgrade of the PowerBreaker Socket range that now ensures we will have the best product for market. A true world market player.

Ricky Trott – Supply Chain Manager at Wilts Electrical Wholesalers
