

# Shaver Lights

## How to replace the shaver light diffuser - Part No STA4NL

The STA4NL shaver light has a built in safety interlock feature, which engages when the diffuser is fitted correctly into the fitting.

*Note: The fitting will NOT work if the diffuser is not in place.*

**Pointed Prongs insert/engage into fittings safety Interlocks.**

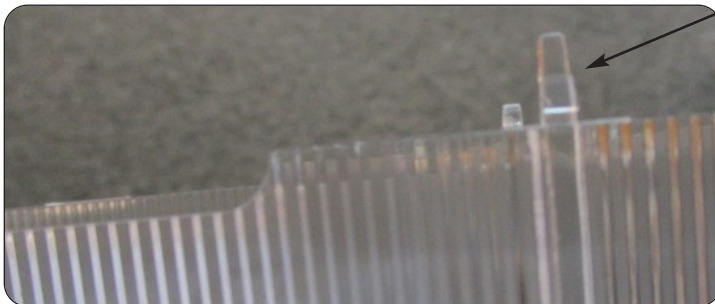

Image:2

The diffuser has pointed prongs at each end, these prongs engage into the safety interlocks on the fitting. (please see Images 1 & 2).

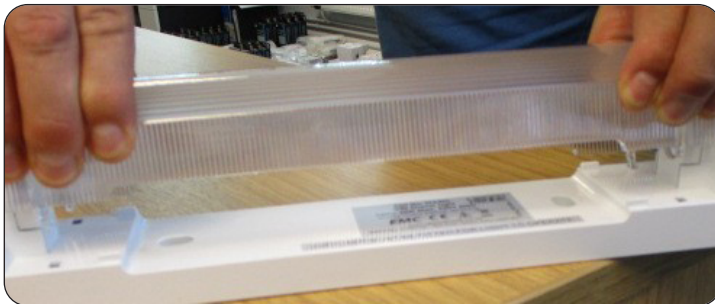

Image:3

To fit the diffuser into the fitting, gently squeeze the diffuser at each end and engage into the interlocks (please see image 3).
